

10 Big reasons why you're not making the money you should :

1. Contacting customers for service appointments is time consuming and costly
2. Your customer is not home at the time of the scheduled appointment
3. Accessing a system's water main supply valve is sometimes impossible
4. You are reluctant to install or service a system that is too far away
5. Wasted service trips equal lost time and income
6. Customers hold you liable for damaged systems due to freeze-ups
7. There is limited ability to "create" off season irrigation work (Suggestion: Retrofit customers with the Alleviator !)
8. Multiple or unusual water connections such as condominiums are very difficult to access
9. You let your customers open their own systems
10. You are not Installing the Alleviator

One small solution to 10 big problems.

NEW!

*Install this valve...
Make more money...
Guaranteed !*

ALLEVIATOR[®]

The irrigation shut off valve.
